Elaboración Observatorio de la Salud-CIES

Sig(dif.) = Referido a la significancia estadística de la diferencia entre los años 2009 y 2010. Cuando el valor es igual o inferior a 0.05 la variación entre los años 2009-10 es estadísticamente significativa. Cuando es mayor no es estadísticamente significativa, lo que invalida efectuar alguna inferencia, siendo los valores sólo referenciales
